Student Demographics and Immunization History
VUSM Student – NonClinical
Medical Statement – *Student Health*

The State of Tennessee requires that all students entering college present a certificate of immunization that the student has received all immunizations required by law. While your state or country of origin may have different requirements, you must comply as required by Tennessee laws, Vanderbilt University, and VUMC requirements.

Deadlines for submission - Immunization History & TB Documentation

You must be compliant with your immunizations and tuberculosis requirements to register for classes at your assigned time. **Please submit both your Immunization Records and your TB testing documents by June 1st.**

New Student Checklist (Action Required)

STEP 1: Complete the online **Tuberculosis Screening Survey** at <https://redcap.link/requiredtbform> .
You must hit submit to the TB data base -and- also SAVE the .pdf file for later upload.

STEP 2: TB testing is required for all incoming VUSM Students. Print the testing form, and take to a provider/lab for **blood testing** (IGRA/QTF-G). TB blood testing must occur within 3 months of program start.

STEP 3: Immunization records- Have a doctor's office, clinic, or health department complete our form. If you do not have a current provider, you may instead submit official signed/stamped immunization records (in English). If you do not have these records either, have applicable titers performed (anti-body blood tests) and obtain lab reports for MMR/Varicella. **Scan these records as a .pdf or .jpeg file for later upload.**

STEP 4: After you have your Vanderbilt VUnetID (not Commodore ID) for at least 24 hours, you can register for our **unique** HIPAA compliant **Student Health Portal** (<https://vanderbilt.studenthealthportal.com>). Follow instructions on the home page of the portal to register.

STEP 5: Once in the portal, click the **Pending Forms** link. Have all **TB Testing/Titer/Immunization** hard copies and scans available for **STEP 6**.

STEP 6: Answer yes/no questions, type in vaccine and/or titer dates in both **REQUIRED** and **RECOMMENDED** sections as applicable. You will then upload your saved scans (**STEPS 1-3**).
Submit when all required fields have been completed.

STEP 7: Within 7 business days of submitting, check your email for messages/next steps from our SHC Team. You may also log into the portal and go to "Messages" in the toolbar.
Once compliant with TN and VU requirements, your student health registration hold will be removed in the Vanderbilt "YES" system allowing you to register for classes during your assigned time.

STEP 8: Students with blood-borne infections (HIV, Hepatitis B, Hepatitis C) will be required to undergo further health screening at the Student Health Center upon arrival on campus. It is a VUMC policy that these infections are self-disclosed by healthcare students and employees for the continuity of care for the student is arranged, and patient safety is insured. ***No private health information is disclosed to VUSM.***

STEP 9: Waive Student Health Insurance Plan (SHIP) if applicable to you. As the Student Health Center is not an overseer of SHIP, we are directing you to access the Student Care Network Insurance website <https://www.vanderbilt.edu/studentcarenetwork/your-health-insurance/> for more information.

Student Health questions? Refer to our **Frequently Asked Questions** section of the SHC website:
